

The new bothyCentral is a purpose-built redeveloped accommodation building that will provide a reliable, safe and economical base in Wanaka for staff working in the winter and summer.

This is not like living at home but living in a community with likeminded people who enjoy the mountains and experiencing everything Wanaka has to offer.

We have some core values and operational guidelines that aim to make sure you enjoy a positive experience in Wanaka but still feel at home living and working with your colleagues. This creates a sense of family which we feel provides our guests with the comfort and security you normally only get at home.

Accommodation Location:- 73 Brownston Street, Wanaka 9305 Otago

We are right in the heart of Wanaka with no requirement to have a vehicle to do any of your daily chores. The staff transport will pick you up at the designated stop around the corner and drop you right outside the front door after work.
